## Powering the Future of Integrated Circuits — ICTA 2026 Debuts in Singapore

**For the first time ever, Singapore will host the 9th IEEE International Conference on Integrated Circuits, Technologies and Applications (ICTA).**

Organised by *ICTA*, this prestigious conference serves as a premier global platform for researchers, engineers, and industry leaders to exchange knowledge, showcase innovations, and explore emerging frontiers in integrated circuits and semiconductor technologies. The 2026 edition will feature a rich technical programme encompassing IC design, semiconductor processes, system integration, and novel applications that are shaping the future of electronics and intelligent systems.

Sponsored by *IEEE Solid-States Circuit Society (Singapore Chapter)* and supported by the *Singapore Semiconductor Industry Association (SSIA)* and the *Singapore Tourism Board (STB)*, ICTA 2026 represents a landmark occasion that brings the international semiconductor community together in Singapore - fostering collaboration, advancing research excellence, and driving innovation across the global semiconductor ecosystem.

## The 2026 edition in Singapore will feature

**Plenary keynotes from world-class experts** redefining the IC landscape

**Technical tracks and showcases** covering next-generation semiconductor frontiers

**Exhibition spaces and corporate showcases** for unmatched visibility

**Networking receptions** connecting regional and global leaders

**Premium sponsorship options** – from track branding to conference materials and experience-based activations

## Why sponsor ICTA 2026?

### **Global Branding**

Align with IEEE, the world's most trusted engineering body, and SSIA, Singapore's leading industry association driving the semiconductor ecosystem.

### **Innovation Leadership**

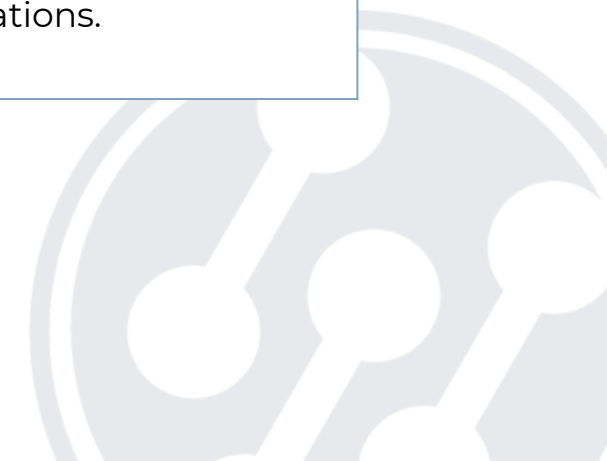

Position your company as a champion of R&D, innovation, and next-gen technologies.

### **Talent Attraction**

Build visibility among top technical talent, academics, and future engineers.

### **Knowledge Exchange**

Be part of thought leadership shaping the future of IC technologies and applications.
